

## DETAILED DECLARATION BY MANUEL INPUT GUIDE

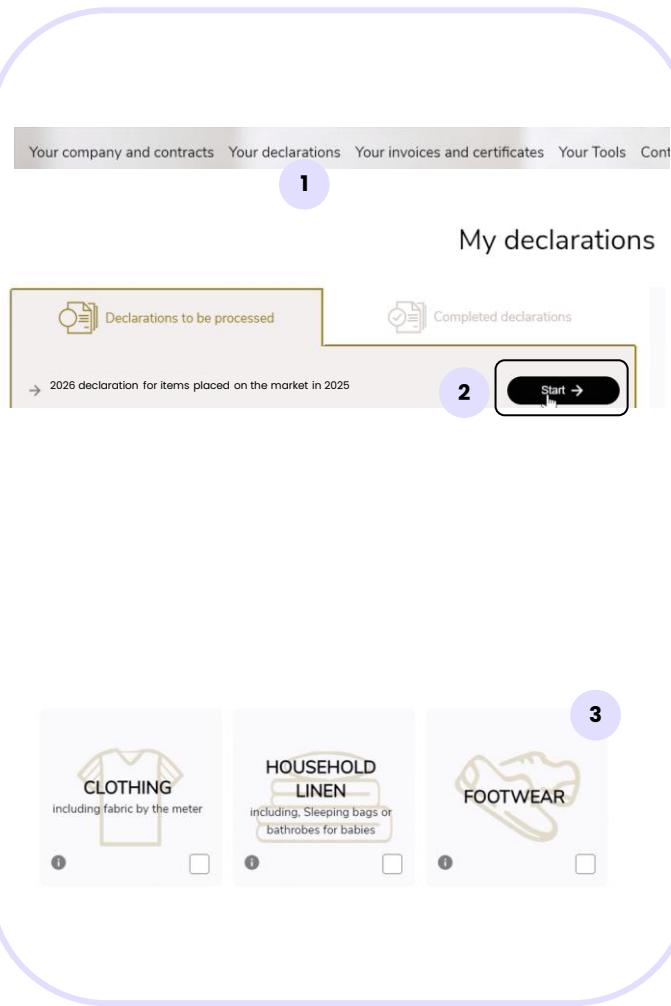

Welcome to the step-by-step guide that will help you complete your Refashion member registration in order to regularize your status and obtain your UIN. This guide is dedicated to the detailed declaration by manual input of your items placed into the market.

### BEFORE YOUR BEGIN:

- Make sure you have completed your Refashion member registration and signed your contract.
- Make sure you are the declarant for your company.
- As a reminder, the detailed declaration is accessible to all marketers, regardless of the number of items placed on the market in the previous year, and is compulsory for those benefiting from eco-modulations.

[Go to adherent.refashion.fr](https://adherent.refashion.fr)

1 Go to the "Your declarations" tab.  
For your information, "Completed Declarations" refer to those from previous years that you can freely review.

2 Click on "Declarations to be processed" and then click "Start".

### Step 1: declare your products and quantities

#### AS A REMINDER

You are required to declare **the quantities placed on the market in the previous year for the current year**.

For the 2026 declaration, which opens in January 2026, you must declare the quantities placed on the market in 2025.

3 Select the product family(ies) related to your items sold by checking the appropriate box(es).  
If in doubt, you can access a list of products subject to the textile sector by clicking on the **(i)** icons.

## AS A REMINDER

You can access the official glossary of products liable to the textile sector:

- On the extranet, under the "Your Tools" > "Declaration" section;
- On our website refashion.fr/pro/en, in the "Marketer" section, under "Liable companies and products" by downloading the non-exhaustive list of products concerned to regulation;
- In our FAQ, under the article "What does the marketer declare?".
